On 25 April, elements of the 19th Guards Engineer Battalion of the 8th Guards Army moved from Weimar-Buchenwald to Bad Koesen. Between 5 and 10 May, components of the 21st Guards Mechanized Division and 73 tanks were dispatched from Halle and the Ammendorf railroad station to the Donndorf/Unstrut railroad station.*

* Comment: The Donndorf railroad station is located on the northern edge of the new training area near Lossa. This information supports the previous assumption that the 21st Guards Mechanized Division would probably conduct summer training in the Lossa area.
